

Product datasheet

IMS11

Infrared superstructure motion sensor

- Indoor and outdoor use
- IP65
- 360° / 12 m

General information

- | | |
|------------------------------|---------------|
| • Model | IMS11 |
| • Body material | Plastic |
| • Maximum detection distance | 12 meters |
| • Product color | White |
| • Detection angle | 360 ° |
| • IP protection rate | IP65 |
| • Neto weight | 0,130 kg |
| • Adjustable ambient light | 3-2000 LUX |
| • Time lag | 10 s - 15 min |

Electrical Specifications

- | | |
|-----------------|-----------------------------|
| • Maximum load | 1200 W |
| • Input voltage | AC 200 - 240 V / 50 - 60 Hz |

Packing Information

- | | |
|----------------------|------------------|
| • Size of carton box | 85 x 70 x 115 mm |
| • Gross weight | 0,160 kg |

Dimensions

- Product dimensions

75 x 62 x 90 mm
